Product Description

GYFXTY Fiber Cable

Outdoor drop cables, reinforced with FRP rods, are available in fiber counts of 2, 4, 6, 8, and 12. These cables conform to the ITU-T G.652D standard and are fully compliant with IEC standards.

Applications

- Communication for long-distance and local area networks (LAN)
- Aerial and conduit/duct applications
- Customizable aramid fiber quantity and stranding process to meet various span requirements

Features

Featuring low-bend-sensitivity fiber for high bandwidth and superior transmission performance. The cables are reinforced with two parallel steel wires or FRP for excellent crush resistance to protect the fiber. They feature a straightforward structure, lightweight design, and high practicality. The innovative flute design simplifies stripping and splicing, easing installation and maintenance. The sheath is designed to emit low smoke, is free of halogens, and is flame retardant.
