## Product Description

### Product Description

**Fiber Optic Cable Description:** This model of fiber optic cable features a single armored uni-tube design with fibers that are housed in a loose buffer tube for flexibility and protection.

**Protection and Armor:** The core of the cable is reinforced with a corrugated steel tape armor, providing robust defense against external forces, and is then encapsulated by a black polyethylene sheath for added durability.

**Tension Support:** The cable includes two embedded steel wires to maintain the necessary tension for stable installation and operation.

### Product Construction

### Product Construction

**Fiber:**  
2-24 fibers  
Uni-loose tube gel-filled

**A armor:**  
Corrugated steel tape

**Strength Member:**  
Embedded steel wire  
**OuterJacket:**  
Black UV-and moisture-resistant polyethylene (PE).

Features

**Gel-Infused Uni-Tube for Enhanced Fiber Protection:**The cable is designed with a gel-filled uni-tube construction that offers superior fiber protection, ensuring the fibers are safeguarded from external threats.

**Steel Tape Armored for Robust Defense:** The cable is fortified with steel tape armoring that shields it from rodent attacks and mechanical damage, providing a strong defense mechanism.

**Embedded Steel Wires for Strength and Durability:** The steel wires embedded in the cable provide the desired tensile strength and enhance its crush resistance for a longer service life.

**Convenient and Compact Installation:** With a compact design, the cable is easy to install, making it an ideal choice for various deployment scenarios.

**UV and Moisture-Resistant Construction:** The cable is built to withstand UV rays and moisture, ensuring reliable performance in all weather conditions.
