Product Description

The ASU Cable is a Self-Supported Optical Cable engineered for device connections, ideal for both urban and rural settings with installation spans of 80 or 120 meters. Its FRP strength member serves as a traction element while avoiding electrical discharges, and it's designed for easy management and deployment without the need for additional strings or grounding.

Cable Structure

Polyethylene Protective Covering: Provides a barrier against environmental wear and tear.

FRP Strength Members: Offer necessary support and electrical insulation.

Quick-Deploy Cord: Enables rapid and straightforward installation process.

- Fiber Optic Lubricant:** Reduces friction and safeguards fibers during installation.
- Flexible Inner Tubing:** Accommodates fiber movement for durability and easy deployment.
- Light Conducting Fibers:** Primary transmission medium for efficient light signal conveyance.
