Product Overview

The ASU Cable, Self-Supported Optical Cable, is designed for device linkage and is suitable for installation in both urban and rural networks with spans of 80 or 120 meters. Its FRP strength member serves as a tension element, preventing electrical discharges, and features simple installation without requiring support ropes or grounding measures.

Cable Structure

- Polyethylene Envelope:** Provides protective barrier against environmental factors and enhances durability
- FRP Tensile Members:** Offer non-conductive structural support
- Installation Expediter Cord:** Enables swift and straightforward cable installation
- Fiber Cushioning Gel:** Protects fibers and facilitates smoother installation

Adjustable Inner Tubing: Accommodates fiber movement while ensuring safety

Communication Fibers: High-performance elements for optimal light signal transmission
