Product Description

Indoor Fibr Optic Cable 48 144 Cores GJFJV Cable G652D LSZH Out Sheath Cable

Utilized for a broad range of distribution applications, the GJFJV cable employs a series of $\phi 900\mu\text{m}$ flame-resistant tight buffer fibers as the medium for optical communication. These fibers are reinforced with aramid yarn for structural support. The cable is then covered with a jacket that can be made from PVC, OPNP, or LSZH (Low smoke, Zero halogen, Flame-retardant) to ensure it meets high safety standards.
