Product Description

Our Fiber Optic Patch Cable (also known as Fiber Optic Jumper or Fiber Optic Patch Cord) consists of a fiber optic cable terminated with different connectors on the ends. These cables are essential for two primary applications: connecting computer workstations to outlets and linking fiber optic patch panels or optical cross-connect distribution centers.

We offer a comprehensive range of fiber patch cords including:

Single mode and multimode options

Multi-core configurations

Armored versions for added protection

Fiber optic pigtails

Specialized patch cables

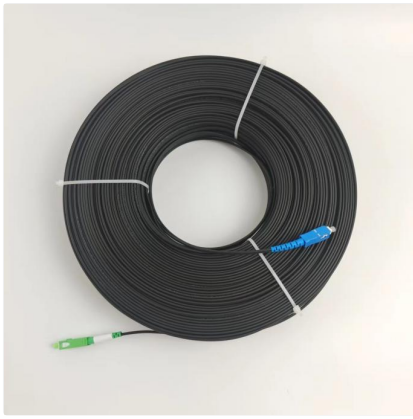

MPO/MTP fiber cables

All our Fiber Patch Cables are standard terminated with LC/SC/ST/FC/MTRJ/MU/SMA connectors on both ends.

Frequently Asked Questions

Why choose us?

We are a manufacturer located in Guangzhou, China, operating since 2011. Our factory employs 11-50 professionals dedicated to producing high-quality fiber optic products for domestic and international markets.

How do we guarantee quality?

We implement strict quality control measures including pre-production samples before mass production and final inspection before shipment to ensure consistent product excellence.

Can you ship to my country?

Yes, we can ship worldwide. If you don't have your own shipping forwarder, we can arrange international shipping for you.

Do you accept OEM orders?

We welcome all OEM requests. Contact us with your design specifications and we'll provide competitive pricing and produce samples for your approval.

What services do we provide?

We offer flexible delivery terms (FOB, CIF, EXW), accept multiple currencies (USD, EUR, JPY, etc.), and provide various payment options including T/T, L/C, PayPal, and Western Union. Our team communicates in both English and Chinese.
